

Former member of the french "Equipe"  
Winner of the Coupe de France and the Championnat de France  
Former Pro Player on the Challenge Tour and the Alps Tour  
Teacher and Golf Coach for the Ligue  
Trainer at the National Center of **ffgolf**<sup>®</sup>

### **My teaching and coaching philosophy :**

« Why guess everything you can measure »

The best players and coaches surround themselves with the best technology to analyse and progress faster, which is why I decided to train and use these new systems in order to help improve your game !

# MY TOOLS :

The **TRACKMAN 4** is used to measure what the Club is doing on impact in 3 dimensions, the total flight of the ball and pair it all with 2 cameras (240 fps) to give you very precise analyses.

The **SM2 Force Plates** is used to analyse the Biomechanics of you supports to adapt your Swing to your physical skills.

The **CAPTO** is used to analyse your Putting in 3 dimensions throughout the movement as well as the roll of the ball.

After each analysis, a debriefing will be sent to you by email to have all the keys to progress quickly.

## **MY PRICES :**
